MEETING OF EUNAT: 7 OCTOBER 2023, VIA ZOOM

Motion submitted by EuNat Secretariat

USING EUNAT FUNDS TO PROMOTE NATURISM: A STRATEGIC APPROACH

This meeting

- takes note of the document “Using EuNat funds to promote Naturism: A strategic approach” and
- agrees the general approach set out in that document.

Argument

The document proposes various ideas and examples of initiatives that EuNat might support in the future, and a fresh approach to support for events consistent with the motion agreed at the World Congress in 2022. The intention is that EuNat should proceed on the basis of a modern, agile and flexible approach to the use of the funds.

Agreement to the “general approach” would not imply agreement to every example described in the document, only to the overall approach described.

Actual expenditure would remain a matter for the European Federations on the basis of proposals brought forward to future meetings.

Financial impact

None arising directly from this motion.
